A degree audit for the Associate in General Studies cannot be generated through EagleNet. AGS audits must be produced by Ed Rogers. His office is located in Burns Hall, room 2233.

To have transfer credit reported on your degree audit you must have an official copy of your transcript on file in the student records office. It may take up to two weeks to have transcripts evaluated.

Please note:
As you scroll through the degree audit, you may notice places where it says in bold red letters NOT MET. This means that you are still lacking credits in this area. You will find that the classes you are lacking listed under the category related to the class. We encourage you to meet with an advisor. When you are done looking over the information, click on the browser window so that you can view the previous page once more and click on Additional Information. There may be additional classes listed here. If you have any questions regarding how to read your audit, please visit the Advising Center located in the Student Center on the second floor.

If you notice any discrepancies—perhaps a class that you thought transferred from another school—or need to inquire about transferability, visit Student Records. Student Records is also on the second floor of the Student Center.
