Nunnally Chevrolet Celebrating New Sustainable Facility
NWACC Participating in Event Displaying Sustainability Initiatives

BENTONVILLE, Ark. (November 27, 2012) – Representatives from NorthWest Arkansas Community College’s Building Sciences programs will display some of the college’s green technology and sustainability program offerings at an event Wednesday celebrating the LEED certification for the Nunnally Chevrolet Dealership. The Nunnally Chevrolet facility received LEED certification in August. The LEED certification program encourages green building and development practices through rating systems that recognize projects implementing strategies for better environmental and health performance.

Nunnally Chevrolet is one of just two LEED certified automobile dealerships in the state, with features like high efficiency plumbing fixtures, a white roof to reflect heat and recycled content in building materials.

Nunnally is partnering with area nonprofits including NWACC, the U.S. Green Building Council – AR Chapter, and EcoPotential to celebrate this achievement. Nunnally representatives and other speakers will review the sustainability measures being incorporated into the facility’s everyday business and display a new LEED plaque and information wall. The event will also include a free barbecue lunch, information on alternative fuels, green car displays and package options, Chevrolet VOLT test drives, and a chance at a $50 Cabela’s card and other giveaways.

Date: Wednesday, November 28
Time: 11 a.m. – 2 p.m.
Location: Nunnally Chevrolet showroom (2700 S.E. Moberly Lane, Bentonville)

For more information on Nunnally Chevrolet, visit: http://www.bentonvillechevrolet.com/
NWACC offers Building Science programs in electrical and plumbing apprenticeships, HVAC, sustainable green building practices, energy efficiency, and LEED.

NorthWest Arkansas Community College is a smart choice for students wanting to pursue quality higher education. As an accredited institution through The Higher Learning Commission of the North Central Association, NWACC is a public two-year institution that serves and strengthens its surrounding communities in Benton and Washington counties by helping our students maximize their potential and exceed expectations. With state-of-the-art facilities, NWACC provides excellent academic instruction and workforce training needed to succeed, offering personalized attention from highly respected faculty, staff, and administrators.
